WILL SPEED UP DELIVERY  
OF MOTORS TO THE ARMY

Six Repair Districts Created for  
Purpose of Aiding in Equipment  
of Expeditionary Forces.

Speeding up the delivery of the  
various motor equipment planned for the  
American expeditionary forces is the  
primary purpose of the creation in this country of six repair districts for  
centralization of the upkeep work on  
motor transport equipment for the  
Army.

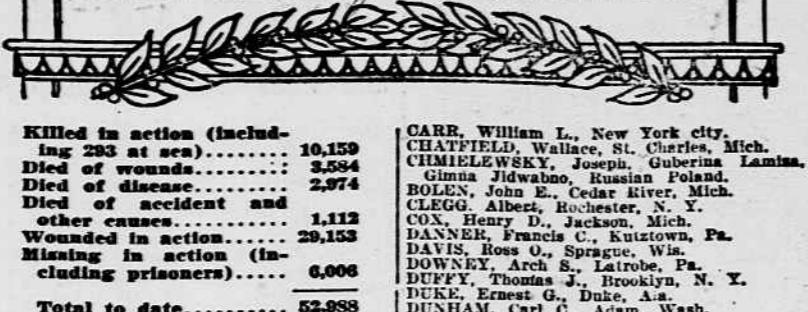

So that new machines can be sent  
to Europe, it is proposed to keep the  
trucks at home in operation until they  
can be repaired to repair them.  
One repair district is to be located in  
the District of Columbia, Camp  
Hornblow, Baltimore, is the largest and most important center since the  
new of motor vehicles to the embarkation  
ports is in its territory.
